

Serial No. 10/701,335
312 Amendment March 31, 2008
Notice of Allowance dated March 7, 2008

Remarks

Claims 1-18 have been allowed in the present application.

The foregoing amendments to the specification are being filed under 37 C.F.R. § 1.312. The applicant believes that such amendments are necessary for proper disclosure of the invention and require no substantial amount of additional work on the part of the U.S. Patent and Trademark Office, MPEP § 714.16. The amendment to claim 11 corrects a minor informality with respect to proper antecedent basis and does not require additional searching by the examiner. The undersigned wishes to thank Examiner Mehta for the courtesies extended in the telephonic interview conducted on March 27, 2008, with the undersigned, in which these amendments were discussed, and during which it was agreed that such amendments are appropriate and do not add new matter to the present application. Therefore, the undersigned respectfully requests that the present amendments be entered and this application be passed to issuance.

Respectfully submitted,
